EFFECTIVENESS OF HOMOEOPHTIC MEDICINE THUJA OCCIDENTALIS IN CASE OF FISTULA IN ANO

Dr. Arya Ashok, BHMS, M.D (HOM)

Medical officer, ESIC Model and Super Speciality Hospital Asramam, Kollam, Kerala

ABSTRACT

Usually fistula in ano is a troublesome disease and it will bring a headache to the patients. In homoeopathy we can treat these type of cases with confidence. Thuja occidentalis is one of the medicine from plant kingdom which brings several cures in different types of diseases especially warts, allergic rhinitis etc. Here I supposed to show the magical cure of fistula in ano with our medicine Thuja Occidentalis. In this case first of all patient visit a gastroenterologist and they advice to surgery. Due to the fear for surgery the patient is coming to homoeopathic system.

KEYWORDS

Fistula in ano ,Thuja Occidentalis, Homoeopathy.

INTRODUCTION

Fistula means the connection between two body parts or one body part and a surface. Fistula in anus means the abnormal connection between anal canal and perianal skin. According to modern medicine it is absolutely a surgical condition. But with our magical healing we can cure this condition without any surgical procedures. One of the evidence of magical cure of our system is forwarded before you.

Case report

Patient name: Mrs. Xxx of age 45 yrs came in the OPD of ESIC Asramam, kollam in the department of homoeopathy on **10/12/ 2021**. she said that she had a complaint of pain and swelling in anal region for 1 yr. it appears once in 2 weeks she consulted a gastroenterologist and he examine her and told that it was a fistula in ano and adviced to do surgery. But the patient Mrs.XXX was not willing to do the surgery. So she selected homoeopathy. She have also sneezing on morning in some days.
